## OrthoBanc, LLC Makes the 2009 Inc. 5000 List of the Fastest Growing Private Companies in America

On August 12, 2009, Inc. Magazine released their 2009 listing of the fastest-growing companies in America. OrthoBanc is included, coming in at number 64 on the financial services list and 1480 on the overall list. This honor places OrthoBanc in an elite group of U.S. firms that has, over the years, included companies such as Microsoft, Timberland, Intuit, Jamba Juice, Oracle and UnderArmour.

“Our success is directly attributable to our clients who have entrusted to OrthoBanc the management of their payment plans and to the great staff here who make it possible. But we could have never grown so quickly if not for the orthodontic consultants and many other friends in the industry who have promoted and supported us in various ways,” said Bill Holt, President of OrthoBanc, LLC, when asked about the company’s first ever inclusion on the recently published list.

OrthoBanc started providing payment management services for orthodontists in 2001 and currently serves over 2,000 providers. OrthoBanc has differentiated itself from payment drafting companies by developing a payment management method that includes all patient contact regarding the payments. OrthoBanc has continued to enhance its services by integrating with leading technology companies in the industry.

“It has been very easy for me to promote OrthoBanc because I feel so strongly about the services we provide. In the last eight years, I have seen first hand how OrthoBanc has been able to transform hundreds of orthodontic and dental practices by changing the way those practices approach their office payment plans. OrthoBanc continues to grow because The OrthoBanc Way works!” said Marla Merritt, OrthoBanc’s Director of Sales and Marketing.

In 2003, OrthoBanc began to expand their payment management platform to work for dentists (DentalBanc), private schools (TuitionBanc), and many other business types (PaymentBanc). Changes in consumer preference and the decline in available 3rd party financing sources have made The Banc’s suite of payment management products more attractive to many businesses across the country.
